CSE Student | AI&ML Enthusiast

Email: abhinaya.4507@gmail.com | Mobile: +91 7671941865

PROFESSIONAL SUMMARY

Computer Science student with experience building hackathon-based web and IoT projects focused on real-world problem solving. Built responsive applications and healthcare-focused prototypes using JavaScript and embedded systems. Currently building a fairness-focused machine learning project while exploring AI/ML, software engineering and open-source technologies.

TECHNICAL SKILLS

Programming : Java, C, JavaScript, HTML, CSS, MySQL
Tools : Git, GitHub, VS Code, Canva
Core CS : DSA, DBMS, Operating Systems, Web Technologies, Object Oriented Programming
Interests : AI/ML, Open Source, Software Engineering

EDUCATION

Geethanjali College of Engineering and Technology

B.Tech in Computer Science Engineering

2024 – 2028

CGPA: 9.63

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Operating Systems, Object-Oriented Programming, Web Technologies

EXPERIENCE

National Entrepreneurship Network Cell – GCET

Team Member

Aug 2025 – Present

Geethanjali College of Engineering and Technology

- Active member contributing to entrepreneurship activities and startup development programs.
- Participated in organizing events, workshops, and initiatives to promote an entrepreneurial mindset.
- Panel Discussion Moderator:** Facilitated structured discussions and managed audience engagement.
- Strengthened communication and public speaking through moderation responsibilities during NEN events.

Social Media Marketer

Community Engagement

Feb 2026 – Present

[@communitie.racing](#)

- Developed and executed social media campaigns to increase community visibility and engagement.
- Collaborated on content strategy and publishing workflows to promote key initiatives across platforms.

PROJECTS

NeuroLift

Arduino, Sensors, C#

[GitHub](#)

- Designed an IoT-enabled wearable prototype to monitor gait patterns in real time.
- Integrated hardware and software during a 36-hour hackathon.
- Built for rehabilitation assistance and healthcare support.

HungerHeal

HTML, CSS, JavaScript

[GitHub](#)

- Developed a responsive web platform connecting food donors, volunteers, and NGOs to facilitate surplus food distribution.
- Implemented role-based workflows to streamline donation management and coordination.
- Designed an intuitive user interface to improve accessibility and user experience.
- Contributed to a solution aimed at reducing food waste and improving food accessibility.

CERTIFICATES & ACHIEVEMENTS

Best TM Award

[View Certificate](#)

NEN Cell

- * Recognized for outstanding contribution, leadership, and active involvement in organizing events and initiatives.

Certificate of Merit

[View Certificate](#)

Top 2 students in B.Tech

- * Awarded for securing a position among the top 2 students in B.Tech based on academic performance.
